

## Programs of Study Approved by the Physiotherapy Board of Australia for General Registration

Granting Institution	Program	Conditions
University of Canberra	Master of Physiotherapy (GE)	Nil
Charles Sturt University (Albury & Orange)	Bachelor of Physiotherapy	The university must provide evidence (1) that the program is conducted in an academic unit that fosters and explicitly supports research and scholarship in physiotherapy; (2) to demonstrate: (a) all students have assured access to clinical placements in all core areas of practice and across the lifespan, (b) there is written evidence of an ongoing and reasonable expectation that clinical practice experiences for the students who will enter the program in the period of accreditation, (c) it is reasonable to expect that a comprehensive clinical education placement experience will be provided to all students who will enter the program in the period of accreditation; (3) that demonstrates appropriate numbers of qualified staff to deliver the program across both Albury and Orange Campuses. The university is required to provide evidence that academic staff allocations enable individual contribution to research; (4) that a full time or substantive appointment at Level D/E is in place to provide academic/research leadership; (5) of Graduate Outcomes across both Albury and Orange Campuses.
Curtin University	Bachelor of Science(Physiotherapy)	Nil
Curtin University	Master of Physiotherapy (GE)	Nil
Griffith University	Bachelor of Physiotherapy /Bachelor of Exercise Science	Nil
Griffith University	Master of Physiotherapy (GE)	Nil

Granting Institution	Program	Conditions
La Trobe University	Bachelor of Health Science and Master of Physiotherapy Practice	The university must provide evidence (1) of a funding plan [including processes for discretionary expenditure] for the Program and specific financial information [budgets etc] in regards to the Program for 2011/2012 and 2012/2013; (2) that the program meets the learning outcomes that are consistent with the professional practice of physiotherapy and the Australian Standards for Physiotherapy; (3) that the program produces Graduate attributes consistent with profession specific knowledge, skills and attributes; (4) of comparative analysis of the program including systematic benchmarking and an evaluative commentary.
La Trobe University	Master of Physiotherapy Practice	The university must provide evidence (1) of a funding plan [including processes for discretionary expenditure] for the Program and specific financial information [budgets etc] in regards to the Program for 2011/2012 and 2012/2013; (2) that the program meets the learning outcomes that are consistent with the professional practice of physiotherapy and the Australian Standards for Physiotherapy; (3) that the program produces Graduate attributes consistent with profession specific knowledge, skills and attributes; (4) of comparative analysis of the program including systematic benchmarking and an evaluative commentary.
University of Melbourne	Bachelor of Physiotherapy	Nil
University of Newcastle	Bachelor of Physiotherapy	The university must provide evidence (1) of a funding plan [including processes for discretionary expenditure] for the Program and specific financial information [budgets etc] in regards to the Program for 2011/2012 and 2012/2013; (2) of comparative analysis of the program including systematic benchmarking and an evaluation commentary.
University of Notre Dame	Bachelor of Physiotherapy	Nil
University of Queensland	Bachelor of Physiotherapy	Nil
University of Queensland	Master of Physiotherapy Studies	Nil
Bond University	Doctor of Physiotherapy	Nil
University of South Australia	Master of Physiotherapy (GE)	Nil
University of South Australia	Bachelor of Physiotherapy	Nil

Granting Institution	Program	Conditions
University of Sydney	Master of Physiotherapy (GE) <b>[only as conducted in Australia]</b>	Evidence Based Practice: The university must provide evidence of reporting on experience and evidence of clinical placements across core areas and the lifespan for students undertaking clinical placements in 2010 and 2011 and provide evidence that the university has an adequate number and range of placements available to support its clinical education requirements for 2012.
University of Sydney	Bachelor of Applied Science (Physiotherapy) <b>[only as conducted in Australia]</b>	Clinical Placements: The university must provide evidence of reporting on experience and evidence of clinical placements across core areas and the lifespan for students undertaking clinical placements in 2010 and 2011 and provide evidence that the university has an adequate number and range of placements available to support its clinical education requirements for 2012.
James Cook University	Bachelor of Physiotherapy	Nil
Monash University	Bachelor of Physiotherapy	Nil
Edith Cowan University	Master of Physiotherapy	(1) The university is required to detail how the new clinical education model planned for sequential cohorts provides progressive exposure that enables students to build and develop clinical expertise; (2) The university is required to provide evidence to demonstrate: (a) all students have assured access to clinical placements in all core areas of practice and across the lifespan; (b) there is written evidence of an ongoing and reasonable expectation that clinical facilities will provide supervised clinical practice experiences for the students who will enter the program in the period of accreditation; (c) it is reasonable to expect that a comprehensive clinical education placement experience will be provided to all students who will enter the program in the period of accreditation; (3) The university must provide evidence that the program meets the learning outcomes that are consistent with the professional practice of physiotherapy and the Australian Standards for Physiotherapy; (4) The university must provide evidence that the program produces Graduate attributes consistent with profession specific knowledge, skills and attributes.
